PAL Airlines Suspends Passenger and Cargo Service to the Quebec Lower North Shore

St. John's, Newfoundland—PAL Airlines has made the difficult commercial decision to temporarily suspend our current passenger and cargo services to the Quebec Lower North Shore. The service from Blanc Sablon-Natashquan-La Romaine-Chevery-St. Augustine-Sept-Iles will operate its final flight on Thursday, April 23, 2020. PAL Airlines will continue to monitor the current situation and assess a potential return to service.

Sept-Iles and Blanc Sablon will remain important destinations for PAL Airlines connecting directly to multiple points in our extensive network throughout Quebec and Newfoundland and Labrador.

Air Borealis will continue to operate mail delivery flights to the Quebec North Shore. Mail delivery flights will operate as usual on Tuesdays, Wednesdays, and Thursdays.
