

PAL AIRLINES & WESTJET INTERLINE

Airlines launch interline flights within Canada

PAL Airlines is excited to announce that it has launched an interline with WestJet for travel within Canada. This interline is effective June 18th, 2018. Please note these flights will only be available for booking by Travel Agents through the GDS (Global Distribution System) and not directly through the airlines. All Interline travel between PAL Airlines and WestJet must be ticketed on WestJet ticket stock.

In June 2016 PAL Airlines implemented a new reservations system to enable interline connectivity and further growth opportunities. Today marks another exciting milestone with this interline implementation with WestJet. Travel Agents are encouraged to book these great new travel options and take advantage of more choice for guests on a national level. Should you have any questions on this partnership we welcome you to reach out directly to your dedicated PAL Airlines Account Manager.
